

#### **Atom editor**

A text editor used by a lot of coders

TidalCycles package Not TidalCycles itself, but an Atom add-on, for live coding Tidal patterns

Code

## Haskell (ghci)

A general purpose programming language

# TidalCycles

A patterning language, turning code into pattterned events, and sending them to SuperDirt

Patterned events

### SuperCollider

A programming language for sound synthesis and signal processing

### SuperDirt

A sound synthesiser/sampler, turning patterned events into

Sound

Code
